ORIGINAL INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions are required to always be followed, including the following: **READ ALL INSTRUCTIONS BEFORE USING THIS APPLIANCE**

⚠ DANGER

To reduce the risk of injury or death by electrical shock:

- Do not reach for an appliance that has fallen into water. Unplug immediately from receptacle.
- Do not use while bathing or in a shower.
- Do not place or store appliances where it is able to fall or be pulled into a tub or sink.
- Do not use in or drop into water or other liquid.
- Except when charging, always unplug this appliance from the electrical outlet immediately after using.
- Unplug this appliance before cleaning.

LITHIUM-ION BATTERY REPLACEMENT

For battery replacement the entire, intact clipper or trimmer should be sent to your nearest Wahl Clipper Corporation location or taken to a suitably qualified professional. The battery should only be replaced by the original manufacturers spare, for safety reasons a substitute should not be used. This product contains a rechargeable battery that is non-replaceable. Do not attempt to remove the battery. Lithium-ion batteries can explode, catch fire, and/or cause burns if disassembled, damaged or exposed to water or high temperatures.

⚠ WARNING

To reduce the risk of burns, fire, electrical shock, or injury to persons:

- This appliance can be used by children aged from 14 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction by a person responsible for their safety, concerning use of the appliance in a safe way and understand the hazards involved. Children should be supervised to ensure that they do not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

WARNING! HANDLE WITH CARE! INJURIES DUE TO INCORRECT HANDLING

- Cutting blades may become hot after prolonged use. (for clippers/trimmers only)
- This appliance is to be used with the power supply unit or USB charge cable provided with the appliance.
- Using other cords with the charge stand may cause serious injury from electric shock.
- Keep the appliance dry.

- If this appliance has USB-C charging capabilities, use only with a USB Power Source on a certified product, such as on a computer, class 2 power supply or automotive adaptor. Never use unapproved USB sources. Always use a certified power supply unit and USB charge cables with original spare parts, which can be ordered via Wahl service centers.
- Do not use attachments not specified by the manufacturer. Never drop or insert any object into any opening.
- Do not hold the appliance by the mains cable to carry it, and do not use the cable as a handle.
- When disconnecting the appliance from the mains, never pull on the mains cable or on the appliance itself. Do not pull, twist, bend, or damage the mains cable.
- Keep the mains cable and appliance away from hot surfaces.
- Make sure that the mains cable is not twisted or kinked when charging or storing.
- If the power supply unit or plug is damaged, when it is not working properly, after it has been dropped or damaged, or after it has been dropped into water, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Do not crush, disassemble, heat above 100°C (212°F), or incinerate the appliance, due to risk of fire, explosion, or burns.
- Use this appliance only for its intended use as described in this manual.
- If batteries are damaged or leaking, avoid contact with the skin or eyes. If this occurs, immediately rinse well with water and seek medical care.
- To prevent batteries from heating up or releasing toxic substances, do not modify, pierce, damage, disassemble, short-circuit, overcharge or reverse charge the product or its batteries.

- CAUTION! DANGER FROM AGGRESSIVE CHEMICALS** Aggressive chemicals could damage the appliance and accessories.
- Never use solvents or scouring agents.
- Follow the cleaning instructions and use all recommended by the manufacturer.
- Hygienic spray and blade set are available from your dealer or our service center.
- Remove the attachment comb. Use the cleaning brush to remove any cut hairs from the housing and from the blade set or cutter bar.
- Only wipe the appliance with a soft, slightly damp cloth.
- Oil the blade set with the blade set oil (See Cleaning and Care). (for clippers/trimmers only)
- If the cutting performance deteriorates after long use despite regular cleaning and oiling, the blade set should be replaced. (for clippers/trimmers only)

SAVE THESE INSTRUCTIONS

FOR COMMERCIAL USE ONLY

- For hair clippers, trimmers, or shavers to cut human hair, beard hair, and eyebrows.
- Use animal clippers for trimming purposes only (animal hair and animal fur).

TROUBLESHOOTING/ PROBLEM SOLVING

- If your rechargeable cord/cordless unit does not seem to be operating or charging properly, please check the following:
- 1. Check the outlet's functionality by plugging another appliance (one you know is in proper working condition) into the outlet.
- 2. Make sure the unit is not connected to a power source that turns itself off when lights are turned off.
- 3. Make sure the unit and power cord contacts are clean and free of hair or other contaminants.
- 4. Verify that the blade assembly moves freely and is mounted properly.
- 5. Wahl cordless Lithium products are equipped with protection systems that extend battery life and prevent damage. These systems ensure the battery operates within its optimum temperature range. If the unit stops running or charging, please allow it to cool before attempting to use or charge. If the problem persists, contact your nearest Wahl repair location.

Blade set is cutting badly or pulling hair out. (for clippers/trimmers only)

- Cause: Blade set is dirty or worn out.
- Cause: Hair or the blade set, if it does not resolve the problem, replace the blade set.
- Skin injury** (for clippers/trimmers only)
- Cause: Too much pressure on the skin.
- Cause: Pressure when cutting close to skin.
- Cause: Damaged blade set.
- Adjust whether the blade edges were damaged during use and replace the blade set if necessary.
- Check the sharpening system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). TRADUCTION DES INSTRUCTIONS ORIGINALES

IMPORTANTES DIRECTIVES SUR LA SÉCURITÉ

Lorsque vous utilisez un appareil électrique, des précautions de base doivent toujours être suivies, incluant les suivantes: **LIRE TOUTES LES INSTRUCTIONS AVANT DE COMMENCER À UTILISER CET APPAREIL**

⚠ DANGER

- Pour réduire le risque de mort ou de blessure par décharge électrique :**
- Ne touchez pas à un appareil qui est tombé dans l'eau. Débranchez-le immédiatement de la prise électrique.
- Ne pas utiliser l'appareil pendant que vous prenez un bain ou une douche.
- Évitez de placer ou de ranger l'appareil dans un endroit où il peut tomber ou être poussé dans une baignoire ou un lavabo.
- Ne pas le placer ou le déposer dans l'eau ou dans un autre liquide.
- Sauf lorsqu'il est en train d'être chargé, débranchez toujours l'appareil de la prise électrique immédiatement après l'utilisation.
- Débranchez cet appareil avant de le nettoyer.

REMPLACEMENT DE LA BATTERIE AU LITHIUM-ION

Pour le remplacement de la batterie, les tondeuses ou les tondeuses de finition non endommagées doivent être envoyées avec toutes les pièces composantes au centre Wahl Clipper Corporation le plus proche ou à un professionnel qualifié. La batterie doit être remplacée par la pièce de rechange d'origine du fabricant. Pour des raisons de sécurité, aucune autre batterie ne doit être utilisée. Ce produit contient une batterie rechargeable qui n'est pas remplaçable. Ne la touchez pas de retirer la batterie. Les batteries au lithium-ion peuvent exploser, prendre feu et/ou provoquer des brûlures si elles sont démontées, endommagées ou exposées à de l'eau ou des températures élevées.

⚠ AVERTISSEMENT

Pour réduire les risques de brûlures, d'incendie, de décharge électrique ou de blessures aux personnes:

- Cet appareil peut être utilisé par des enfants âgés de 14 ans et plus et par les personnes présentant des capacités physiques, sensorielles ou mentales réduites ou bien dénuées d'expérience ou de connaissances si elles ont été informées de la manière d'utiliser l'appareil par une personne responsable de la sécurité et avec la compréhension nécessaire des dangers inhérents à la tâche. Les enfants doivent être sous surveillance afin de s'assurer qu'ils ne jouent pas avec l'appareil. Le nettoyage et l'entretien effectués par des enfants ne doivent pas se faire sans supervision.
- AVERTISSEMENT! MANIPULEZ AVEC SOIN! RISQUES DE BLESSURES EN CAS DE MANIPULATION INCORRECTE**
- Les lames de découpage peuvent chauffer après une utilisation prolongée. (uniquement pour les tondeuses/cisaille)
- Cet appareil ne doit être utilisé qu'avec le bloc d'alimentation ou le câble de recharge USB fourni à l'achat.
- L'utilisation d'autres câbles avec le socle de charge peut provoquer des blessures graves par électrocution.
- Gardez l'appareil dans un environnement sec.

- Si cet appareil est doté de capacités de charge USB-C, ne l'utilisez qu'avec une source d'alimentation USB sur un produit certifié, tel qu'un ordinateur, un bloc d'alimentation de classe 2 ou un adaptateur automobile. N'utilisez jamais de sources USB non approuvées.
- Les blocs d'alimentation défectueux ainsi que les câbles de recharge USB doivent être remplacés uniquement par des pièces de rechange d'origine qui peuvent être commandées dans les centres de services Wahl.
- N'utilisez pas d'accessoires non spécifiés par le fabricant.
- Né déposez ou n'insérez aucun objet dans n'importe quelle ouverture.
- Ne tenez pas l'appareil par le cordon d'alimentation pour le transporter et n'utilisez pas le cordon comme une poignée.
- During use, do not place or keep the appliance where it is expected to be subject to damage by animals or exposed to weather.
- Do not use outdoors or operate while aerosol (spray) products are being used.
- Follow the charging instructions and use all recommended by the manufacturer.
- Always switch the appliance off before storage, as the appliance can fall down due to the vibrations.
- For optimal charging instructions, please refer to the user manual.
- Charging improperly or at temperatures outside of this specified range may damage the battery and increase the risk of fire. Avoid direct exposure to sunlight.
- Verify that the blade assembly moves freely and is mounted properly.
- If the cutting performance deteriorates after long use despite regular cleaning and oiling, the blade set should be replaced. (for clippers/trimmers only)

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.

Place one drop of Wahl oil in the centre of the movable top blade and one drop of oil on each end of the top blade in a 3 point oiling system (Figure 1A). Turn appliance "ON" and run to distribute the oil. Periodically oil head of blade (Figure 1B). Wipe away any excess oil. Only wipe the appliance with a soft cloth, which may be dampened slightly. Do not use solvents or abrasives! DO NOT USE bleach, benzene or thinner to clean.
